CAPTRIX AUDIT WORKFLOW MANUAL

A Complete, Simple English Step-by-Step Guide for Statutory Auditors, Chartered Accountants, and Audit Teams

1. What is Captrix & Who is it for?

Captrix is an autonomous statutory audit platform designed specifically for Indian Chartered Accountants (CAs). It ingests your client's year-end accounting records, reconciles transactions against bank and tax portal records, executes statutory audit procedures, and drafts professional audit reports complying with the Companies Act 2013, CARO 2020, and the Income Tax Act 1961.

Primary Users: Statutory Auditors, Engagement Partners, Audit Managers, Articled Assistants, and Corporate Tax Teams.

2. What File Should You Upload? (The Single Audit Pack)

You do not need to upload multiple files one by one. You can upload **one single Excel file (.xlsx)** or a **.zip folder** named Client_FY2024_25_Audit_Pack.xlsx containing 6 sheets:

Sheet Name	Contents	Why Captrix Needs It
Sheet 1: Trial_Balance	Account Code, Name, Debit, Credit	Verifies mathematical equality (Dr = Cr) and builds Schedule III Balance Sheet / P&L.;
Sheet 2: General_Ledger	Date, Voucher No, Account, Dr, Cr, Narration	Performs daybook scrutiny, unusual journal detection, and forensic audit checks.
Sheet 3: Bank_Statement	Txn Date, Narration, Chq No, Dr, Cr, Balance	Executes automated Bank Reconciliation (BRS) against bank ledger accounts.
Sheet 4: Fixed_Asset_Register	Asset ID, Category, Cost, Put to Use Date	Recalculates Companies Act Schedule II depreciation and flags unrecorded variances.
Sheet 5: Subledger_Aging	Party, PAN, GSTIN, MSME Status, Due Date	Calculates Section 43B(h) statutory disallowances for MSME overdue payments (>45 days).
Sheet 6: GSTR_2B_Purchase	Supplier GSTIN, Invoice No, Taxable Value, Tax	Reconciles Input Tax Credit (ITC) between GST Portal GSTR-2B and Purchase Ledger.

3. Complete Step-by-Step Workflow

Step 1: Uploading Documents (Page: /upload)

- Open the **Upload Documents** page from the navigation bar.
- Drag and drop your Client_FY2024_25_Audit_Pack.xlsx file into the dropzone.
- Review the detected sheet matrix (green checks will appear for all 6 categories).
- Click the blue **'Process Audit Pack'** button to start.

Step 2: Automated Pipeline Monitoring (Page: /processing)

- Captrix automatically advances through 13 audit stages: Extraction → Normalization → BRS → GST Reconciliation → Statutory Procedures.
- Each completed stage turns green with a checkmark (✓ Completed).

Step 3: Reviewing & Resolving Findings (Page: /exceptions)

- If any discrepancies exist in the books, Captrix generates an **Audit Exception Card**.

Example (Depreciation Variance): *Captrix recalculates Schedule II depreciation at* ***■11,39,999.40****, but finds* ***■0.00*** *recorded in the client's ledger.*
• ***Inspect Evidence:*** *Click this button to view the asset list, useful lives, and calculation sheets.*
• ***Update Resolution:*** *Click this button and select 'Adjusting Journal Entry (AJE) Recommended'. Add a note: 'Dr. Depreciation / Cr. Accumulated Depreciation ■11,39,999.40'. Click Save to clear the finding.*

Step 4: Statutory Assurance in the Auditor Suite (Page: /auditor-suite)

- **CARO 2020 Tab:** Shows all 21 statutory clauses (PPE, Inventory, Loans, Statutory Dues, Fraud). **Touch or click any card** to open the complete ICAI Sub-Checklist, Audit Procedures, and Draft Audit Report paragraph.
- **Tax Audit Form 3CD Tab:** Click any clause row (e.g., Clause 22 MSME, Clause 34 TDS, Clause 44 GST) to review statutory working papers and update partner observations.
- **MSMED Section 43B(h) Tab:** Shows the overdue payables pool (>45 days) subject to statutory disallowance under Finance Act 2023.
- **Completion Controls:** Verifies the 9-Point Mandatory Pre-Sign-off checklist before the audit can be locked.

Step 5: Final Partner Sign-off & Reports (Page: /reports)

- When all 9 completion checks pass, the Engagement Partner clicks **'Finalize Engagement'**.
- Navigate to **Reports** to download the complete audit-ready deliverables: Independent Auditor's Report, Form 3CD, and Schedule III Financials.

4. Quick Reference Matrix: Where to Go & What to Do

Page Name	URL	Your Action As Auditor
Upload	/upload	Drag & drop the 6-sheet Excel audit pack; click Process.
Processing	/processing	Watch the 13 automated audit stages complete in real time.
Exceptions	/exceptions	Inspect evidence and resolve differences (e.g. Depreciation Variance).
Auditor Suite	/auditor-suite	Touch cards to open CARO 2020 & 3CD details; review Sec 43B(h) pool.
Reports	/reports	Perform partner sign-off and download final PDF/Excel audit reports.
